

# Colours of Angels

The Colours of Angels attunement offers seven connections with seven Archangels and their respective Rays

You will then be able to call upon any (or all) of these Archangels whenever you desire.

Angels never leave you, or ignore you - they will always be there to listen to you whatever the time, day or night.

As you are connected to each Archangel you will also be connected to each Ray that the Archangel serves from.

*The Colours of Angels attunement comprises a distance attunement and a manual sent to you by email.*

*After receiving your Colours of Angel attunement you will be asked to email a brief write-up of your experiences of the attunement (don't worry, further instructions will be emailed with your manual!) ~ once we have received this you will be issued with a certificate sent by email in PDF format.*
